LACi
(Lancashire Art & Craft Initiative)
is now in its 9th year, exhibiting some of the most impressive fine art and design talent.

The LACi scheme aims to promote new graduates from across the region. This is done through a series of exhibitions at high profile venues throughout the North West. These exhibitions give new artists and designers the opportunity to gain experience of working with galleries and museums and to access marketing and retail opportunities.

Member galleries, all publicly funded, include commercial galleries and museums with their own specialist collections. They work with the selected artists and designers and the region's universities to bring high quality fine art and design to communities across the North West.
